JOB DESCRIPTION**

JOB TITLE	Post-Doctoral Research Associate in Rural and Coastal Health				
DEPARTMENT	Lincoln Institute for Rural and Coastal Health				
LOCATION	Lincoln Campuses				
JOB NUMBER	CHS151 & CHS152	GRADE	7	DATE	September 2024
REPORTS TO	Institute Director				

CONTEXT

The Lincoln Institute for Rural and Coastal Health (LIRCH) is the country's first integrated and multidisciplinary research institute dedicated to rural and coastal health research. LIRCH has been awarded £10.9 million funding from Research England's Expanding Excellence in England (E3) fund and is in the process of significant expansion. As part of this expansion, the University will recruit to over twenty research positions. A technical and professional services team will also be embedded within the Institute to support the research and develop a financially sustainable research Institute.

With this expanded capacity, the Institute will bring together multiple disciplines to produce impactful research helping to tackle the place-based inequalities experienced by rural, coastal, and remote communities. By co-designing and shaping the emerging discipline together with the next generation of researchers and affected communities, LIRCH aims to create the future academic and community leaders of rural and coastal health.

The postholder will contribute to shaping the collective research portfolio of LIRCH and is expected to have displayed a keen interest in the health outcome disparities faced by rural and coastal communities throughout their academic career to date.

JOB PURPOSE

The Post-Doctoral Research Associate is responsible for conducting research on the project, as directed by the Principal Investigator, and is expected to operate with a significant degree of autonomy. They are not expected to operate as an independent researcher.

The post holder may be required to help supervise the work of more junior researchers.

The appointed PDRA will contribute to the acquisition of external funding, helping to supervise PhD students, publishing in the highest quality journals and conferences, contributing to positive impacts on rural, remote, and coastal communities, and conducting research in line with the targets set by LIRCH and the University of Lincoln.

In addition, the PDRA will support in public engagement activities, such as public workshops and may have future opportunities to contribute to postgraduate teaching activities.

KEY RESPONSIBILITIES

Literature Surveys

- Undertake literature surveys and other investigations of the state-of-the-art, and prepare reports as required.

Programme of Research

- Undertake a programme of research under the direction of the Principal Investigator, demonstrating a significant level of autonomy.
- Lead in the production of high-quality research outputs, including reports, papers and other publications of national/international standing.

Project Management

- Perform project management activities, planning, scheduling, monitoring, and reporting on progress of research projects.
- Contribute to the production of annual reports and any other reporting requirements, as appropriate.

Liaison and Networking

- Identify and liaise with internal and external collaborators, and with colleagues in the Institute, maintaining positive and effective working relationships.
- Establish an awareness of and engagement with stakeholder networks that are relevant to rural and coastal health as well as to the future evolution and success of the Institute.

Internal Research Activities

- Participate in and help to organise internal research activities, including seminars, research meetings and conferences.

Continuous Professional Development

- Undertake continuous professional development activities.

Grant Applications

- Contribute to the production of grant applications.
- Ensure impact plans are embedded in grant applications.

Teaching Support

- Engage in teaching support activities, up to a maximum of six hours per week, possibly including leading a small number of units (no more than two per annum).
- Aid in the supervision of postgraduate research students.

In addition to the above, undertake such duties as may reasonably be requested and that are commensurate with the nature and grade of the post.

ADDITIONAL INFORMATION

Scope and dimensions of the role

This is primarily a research focussed role within the Lincoln Institute for Rural and Coastal Health.

The postholder is required to work collaboratively with colleagues beyond the Institute as well as with community groups. They are expected to actively contribute to achieving the objectives aligned to securing financial sustainability for the Institute and positive impacts for rural, remote and coastal communities.
